All shipments picked up pursuant to the terms and conditions of this solicitation will be subject to a fuel-related surcharge equal to 3 percent of the total applicable charges (see notes below) as set forth in this solicitation.

The linehaul portion of Item 408 (EDI billing code 108A) and Appendices A, B, C, D, and E of Chapter IV are covered in this surcharge. To determine the proper increase to apply, multiply the total applicable charge by 3 percent. Fractions of one-cent will be disposed of as follows:

- a. Fractions of one-half cent or more will be increased to the next whole cent.
- b. Fractions of less than one-half cent will be dropped.

**NOTE 1:** Notwithstanding any other provisions of this solicitation, the fuel-related surcharge **WILL APPLY** to transportation charges applicable on storage-in-transit shipments when such shipments are delivered or removed from the storage-in-transit warehouse during the effective period of this supplement.

**NOTE 2:** The surcharge is to be shown separately from the total revenue on the personal property Government bill of lading or DD Form 619 and any invoice submitted to the finance center, for the purpose of identifying the amount as a special surcharge.
